

# Career Connections After School Program

SPACE IS LIMITED  
APPLY NOW

## What Is Career Connections?

Career Connections is an after-school enrichment program designed to assist ninth grade students in the development of educational and career goals in the fields of science, technology, engineering and mathematics. Students will take part in a variety of career exploration activities at the Forrest Career and Technology Center that include hands-on, project-based learning in a variety of areas including Natural Resources, Engineering Manufacturing, Building Trades, and Culinary Arts.

**Who:** All Ninth Grade Students

**Where:** James A. Forrest Career and Technology Center

**When:** Wednesdays 3pm-5pm

**Start Date:** October 21

**Why:** Explore careers through authentic project based activities

### Activities Include:

Rocketry

Building Remote Control Vehicles

Competitions

Design and Manufacturing

Computer Design

Natural Resource Projects and Environmental Monitoring

Food Preparation
