*Information on SMS text messaging and Short Codes:
SMS stands for Short Message Service and is commonly referred to as a "text message". Most cell phones support this type of text messaging. Our notification provider, SchoolMessenger, uses a true SMS protocol developed by the telecommunications industry specifically for mass text messaging, referred to as "short code" texting. This method is fast, secure and highly reliable because it is strictly regulated by the wireless carriers and only allows access to approved providers. If you've ever sent a text vote for a TV show to a number like 46999, you have used short code texting.

To continue receiving text messages, reply with Y. If you don’t reply, you will not receive any future texts alerts from SchoolMessenger, the SMCP S service provider. Text alerts include weather-related closings and emergency information.

How do I know if it worked?
