

Dear Park Hall Elementary Families,

I would like to take this opportunity to introduce myself and share my excitement about my appointment as the new principal at Park Hall Elementary School. I am honored to join a school that is focused on student learning, is committed to high expectations, innovation and collaboration. I am looking forward to building upon the excellent academic achievements of the Park Hall students as well as the unique educational opportunities that the school provides.

I believe that as principal, it is my duty to ensure that all students receive a high quality education, delivered in a safe, respectful, and structured environment. Along with a strong focus on high quality instruction and student achievement, I will work to ensure and monitor the success of our initiatives like our IRLA reading program, our new Bridges math program, Positive Behaviors, Interventions and Supports (PBIS) and building a positive and welcoming school culture.

Communication is important in fostering a strong home/school connection and helps to ensure the success of your children. We welcome parent participation and volunteers. We encourage our families to become members of our PTA and School Improvement Team.

I have begun meeting with staff this summer to learn more about the strengths, traditions and practices of Park Hall Elementary School. These conversations are just the start in creating a roadmap for the school's future. I firmly believe that the home/school connection is an important factor in the success of our students. I look forward to meeting the Park Hall families in the coming months!

Enjoy the rest of the summer and remember to read with your children daily!

Sincerely,

Jeffrey D. DiRenzo

Principal
